Comments: As a full time resident of Cook Co., I support the proposed "Alternative 2 Expansion" of Lutsen Mountains. As tourism is the leading industry here in Cook Co., I feel it's vital to continue to enhance the future economic vitality of the area. The propose expansion project has been well thought out technically and the environmental impact is minimal. If Lutsen Mountains is to survive in the future, it must be able to compete with much larger ski resorts across the country. The loss of Lutsen Mountains would be devastating to the local economy. My only hope is that if Lutsen Mountains does expand, it continues to NOT offer night skiing, so as not to diminish our "Dark Sky" with respect to light pollution.
