Title:

Comments: I would like to thank our local government for all they have done to keep Utah outdoors open and accessible to all . As for our future use I urge you to please keep areas open for recreation. I am not so selfish as to think only my interest should be a priority . I enjoy these areas in every season . I enjoy both motorized and non motorized, from UTV, motorcycle and snowmobiles to backpacking ,mountain biking , skiing, rock and ice climbing. Please take in to account in this age of equality we should all enjoy these areas and introduce our younger generation to the beauty of Utah and to be good stewards of the land . Keep our lands accessible to motorized with as much effort as non motorized.

Thank you

Santiago.
