First name: Virginia

Last name: Carlson

Organization:

Title:

Comments: To Project Manager,

Given the Scientific consensus that the climate is changing and warming due to human activity, and given the Pack Creek forest fire this past summer (2021), I request that the Conservational Alternative be included as one of the options in the Draft EIS to be published in 2022.

Thank you, Virginia Carlson a Grand County Utah resident for over 20 years
