Title:

Comments: I lived IN Sanpete County for over 30 years, and have ridden my horse, snowmobile and ATV and Jeep over probably every road in the Forest! I have also camped with my family and friends in many different and beautiful dispersed camping spots (I don't believe we ever camped in a 'real' campground...)

Your proposed forest management plan looks to me like it would curtail many of those activities! I do not find this acceptable, since it ignores the increasing demand for more roads, trails and camping spots by more and more users. The residents of the Wasatch Front have discovered our cherished playground and want to share!

I encourage the USFS to choose to MANAGE the lands over which it has jurisdiction to allow the responsible use.

Thank you for considering my views.

Sincerely,

Judy Zumwalt
