Title:

Comments: I do not support the deforestation proposal. The thinning of the forested areas is a consideration, but it is not a proven solution in for this situation.

Further investigation should be brought to this situation to assure that we are making the correct decision.

Reassessing this thinning is the best decision. Thinning is permanent, if it is not the correct decision, there is no going back. Trees of this stature take hundreds of years to grow.

Let's do an investigation of proposals so we can guarantee the safety of our environment, forest, and our future.
