Comments: As a long time volunteer for the USFS , I find it very distressing that we allow this abuse of wildlife in our national lands . the forest service is supposed to be here to PROTECT NOT DESTROY , yet it seems as if cattle \$\$\$\$ is paying off our govt to get rid of wild horses so they can have IT ALL . The expense to do this is outrageous and we are willing to spend a disgusting amount of \$\$\$ rather than use the pzp dart to control herd size. Im embarrassed to be part of an organization that likes to kill off wildlife for NO GOOD REASON and will continue to inform the public that this crap is going on . !
