Title:

Comments: I strongly oppose the USFS and BLM's plan to proceed with the Proposed Action that would:

Roundup and unnecessarily remove hundreds of federally-protected wild horses and burros in order to achieve the unscientific low AMLs;

Utilize helicopter drive trapping for the removal; and

Potentially implement GonaCon and/or untested, inhumane surgical sterilization procedures on wild mares and stallions instead of exclusively PZP fertility control in a manner which would humanely stabilize the populations in accordance with the recommendations of the National Academy of Sciences (NAS) with a Catch-Treat-Release system.

This system is out of control and needs to be revised and the American taxpayer is footing the bill for wild horse abuse.
