Comments: 1. Keslo Mesa - Escalante Canyon

I love to hike in the scenic and quiet Escalante Canyon area and ask you to please reverse the exclusion of Kelso Mesa from Alternative B as "lands with wilderness characteristics" as it is inconsistent with its own analysis of the area. It would be good to restore previous inclusion of the Dry Fork Escalante Creek for Wild and Scenic River eligibility "relatively undisturbed stand of Blue spruce. This are is the first example of this cover type nationally to be set aside as a Research Natural Area
