Comments: I am very concerned that the Six Rivers NF map does not seem to include hazard tree removal on any of the County Maintained Roads within the August Complex. I am particularly concerned about Mad River Road, Ruth Zenia Road, Zenia Lake Mountain Road, Hoaglin Road, and Long Ridge Road.

I certainly do not want to hold up any process for hazard tree removal, but hope that there are plans to perform hazard tree removal on all of the above listed roads where they cross USFS property.
