Comments:

THE SMOKE IS REALLY AFFECTING ME. THERE ARE SO MANY PRESCRIBED BURNS SINCE I'VE MOVED HERE IN 2005!

I HAVE TO TAPE MY DOORS AND WINDOWS SHUT, BECAUSE THE SMOKE GIVES ME HEADACHES, EYEBURN AND BRAIN FOG AND AM MORE BED BOUND BECAUSE OF IT.

The Forest Service continues to ignore the impact of smoke from prescribed burns on the public

JUST STOP IT!!! STOP BURNING!

I ALSO demand an Environmental Impact Statement (EIS) be done for this project. A mere Environmental Analysis (EA), which they have done, is inadequate to assess the huge impacts this project would have on the forest and public health.
