Title:

Comments: I oppose any further roundups of our Wild Horses. This action is illegal and cruel. I'm tired of subsidizing ranchers and the oil and gas industry. Their comments and supposed facts are disingenuous. Why is the American taxpayer spending a billion dollars a year for these roundups that are not necessary??? I can only imagine the other costs we are paying for on behalf of the aforementioned industries. I intend to contact news organizations in the hope they investigate this matter further. This is outrageous.
