Title:

Comments: I am a Colorado resident, off road motorcyclist and have enjoyed the access to our beautiful state's backcountry for many years. Keeping access open in a responsible way is very important. I particularly like single track loops where possible, along with back country two track trails and roads.

I support Alternative C with the following modifications:

The addition of verbiage from Alternative B that protects motorized access to the Continental Divide Trail and areas around the trail.

The addition of specific protection to any route that has already been approved as a motorized route in site-specific Travel Management by the FS. In particular any of these routes that have been proposed to be encompassed by a Primitive or Semi Primitive Non-Motorized ROS category.

Consistency between Wildlife Management Area trail densities and best available science that are based on wildlife population counts
