Comments: Hello - I am one to normally be in the background and not voice my opinion. I am in support of Alternate C. We need to keep the motorized trails that we have and expand further as more folks are using the back country. I am one of those good stewards that dont ride when the trails are wet and encourage others to do the same. I also MTB and hike quite a bit and i understand all sides of the discussion but, we need to have room for all.

Thank you for your time.

Respectfully,

Robert McNamara
