Comments: I urge you to recommend more Wilderness in the final Lincoln National Forest plan. I feel that the draft plan, as it currently stands, does not do enough to protect the wild places within the forest.

President Biden has committed to protecting 30% of our nation's lands and waters by 2030. In light of that, it is disappointing to see a national forest recommending such a small amount of new wilderness.

Please recommend more wilderness in your final management plan!
