Comments: Please correct the Winter Travel Map (map of the current status of winter travel decisions) because the entire Skyway, County Line and Ward systems should be classified as "Oversnow Vehicles Prohibited Seasonally."

Additionally, please correct the mistake in that Alternative C mistakenly categorizes the current usage of the eastern part of Ward ski area. The Ward ski area should remain non-motorized for winter use.

Alternative D is my preferred option for winter travel. In my opinion, the classification of "Semi-Primitive Non-Motorized" allows us the greatest area of non-motorized use, and the designation gives us more potential to expand our non-motorized trails in the future.

The Grand Mesa Nordic Council trails are very important to me and my family. We use these trails year round and it's important that they are classified for non-motorized use to prevent misuse and irreparable damage.

Thank you for your time and attention.
