Last name: Applebach

Organization:

Title:

Comments: Having ridden the Continental Divide trail near Sargents we support Alternative C with the following modifications:

The addition of verbiage from Alternative B that protects motorized access to the Continental Divide Trail and areas around the trail.

The addition of specific protection to any route that has already been approved as a motorized route in site-specific Travel Management by the FS. In particular any of these routes that have been proposed to be encompassed by a Primitive or Semi Primitive Non-Motorized ROS category.

Consistency between Wildlife Management Area trail densities and best available science that are based on wildlife population counts published by CPW.

Thank You.
