Title:

Comments: Forest Service Personal, I wish to voice my objection to any of the proposed language that places additional restrictions on motorized access to the Grand Mesa, Uncompahgre, and Gunnison Forest Plan. I have lived in Colorado for 42 years. During that period, I've witnessed a tremendous reduction in motorized access in our National Forest, BML, State, and local municipalities. In fact, I would ask you to open more access in our National Forests to motorized vehicles.

Thank you for your consideration,

David Garrett
