Title:

Comments: The Grand Mesa, Uncompahgre and Gunnison Forests are my back yard and my family has lived in the area for four generations at least. To say I love the land and its beauty would be an understatement. Having said that I am strongly in favor of maintaining existing and expanding motorized trail systems in the forrest. I fully support the position of the Trails Preservation Alliance, CORE, and CSA.

I support Alternative C with the following modifications:

The addition of verbiage from Alternative B that protects motorized access to the Continental Divide Trail and areas around the trail.

The addition of specific protection to any route that has already been approved as a motorized route in site-specific Travel Management by the FS. In particular any of these routes that have been proposed to be encompassed by a Primitive or Semi Primitive Non-Motorized ROS category.

Consistency between Wildlife Management Area trail densities and best available science that are based on wildlife population counts published by CPW.
