Comments: It is imperative that the GMUG Draft Revised Forest Plan consider the environmental and recreational needs and desires of the users of this area. This is a special place robust with fishing and hunting opportunities, outdoor recreation opportunities and healthy ecosystems and habitats for wildlife and we should keep it that way. In particular, I'd like to see the following amendments:

Establish new Recreation Emphasis Areas, like Mesa Top and Uncompahgre Plateau South, to ensure that high-use recreation areas are sustainably managed for future use.

Reconsider the limits on non-motorized, trail-based recreation within Wildlife Management Areas.

Expand the Eligible Wild and Scenic River inventory to help protect iconic rivers such as the Taylor River, Uncompahgre River, East River, and many others.
