Comments: To whom it may concern,

I'm writing this in opposition to the idea of closing or restricting access to our public lands by road near Yellowpine Idaho. I am disabled, yet I am able to ride in ATV, jeep or my truck. I love enjoy being in our mountains, seeing the rivers, animals and scenery. If you close these roads you are ensuring that these places are inaccessible to the disabled population. Our tax money has paid to build and maintain these roads. Therefore, this access is partially mine.

I understand that there are factors in consideration like trash, and those who don't abide by the rules or "tread lightly". There are solutions to this. There are groups that would offer their time and energy to help maintain these areas if we knew of the need or were simply asked.

Please don't close these roads, don't forbid me from seeing my home state, and area I love.
