First name: Austin

Last name: Sharp

Organization:

Title:

Comments: These roads have been used and enjoyed for years by Idahoans. With the influx of out of staters, less roads and trails mean more off trail excursions and more pressure on the already busy system. All of these roads provide a person with an experience of the outdoors that other states don't offer. The motorized community is one of the main sources of revenue for the area. Keep it open and do a better job with management.
