Title:

Comments: I am a native Idahoan and as a child lived at Cinnabar mine. At age 69 the only way I can get to and enjoy any back country is by pick-up truck and a little light walking. I love the mountains and my soul is comforted by them. Please don't restrict access for so many of us old timers. My dad was a miner and mountain man who often walked or skied in and out of the back country. I was taught to respect as well as admire this land and wish to continue to do so.

Thank you much,

Connie
