Title:

Comments: Stop locking up our national forest. I am particularly interested in the mountain areas around Cascada/ Yellowpine area, but This also goes for other areas in Idaho Northern Nevada, Eastern Oregon etc. I was born in Stibnite in 1949 and I grew up visiting this area every year as a youngster and after I grew up I took my kids there every year to ride the trails on motorcycles and ATVs. Now I'm getting older and I love taking my grand kids to these areas. Now that I'm getting older I purchased a SxS and I still enjoy riding to these areas. Please leave these old trails and roads open. If you must, patrol them better to stop those who want to tear things up. Thank you for taking my letter
