Comments: I oppose using chainsaws to clear trails in Wilderness.

Dead and dying trees should be left alone in Wilderness. Many animals use these snags and they need to remain as they also provide their nutrients.

The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries. Wilderness is in short supply and dwindling because of human activity. WE NEED PLACES WITHOUT HUMAN ACTIVITY
