Comments: I oppose using chainsaws to clear trails in the wilderness, and dead and dying trees must be left alone. If a trail must be cleared, a crosscut saw should be used so as to minimize damage to the wilderness area. Under no circumstances should wilderness areas be carelessly clearcut and chainsawed. These forest service should leave wilderness alone for people to experience on our own terms and kept natural. There is so little forest habitat left as it is, we must save what we have left.

Thank you for listening and doing the right thing.
