Comments: I agree with Wilderness Watch on the following points:

I oppose using chainsaws to clear trails in Wilderness.

Dead and dying trees should be left alone in Wilderness.

The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.

Wildlands should be left as wild and natural as possible. This ensures that wildlife can use natural environments to thrive and the surrounding environment can remain in balance.
