Comments: To whom it may concern,

This project highly concerns me. I oppose using chainsaws to clear trails in Wilderness. When we do that, we no longer have wilderness. The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed. But these should be minimal.

I believe that wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails. We need to enjoy nature as it was meant to be enjoyed.

Thank you!
