Title:

Comments: With your position of taking care of our forests I do not want dead trees to be destroyed unless across a road or path because wildlife will use it, do not use chainsaws please use crosscut saws and please do not let any project to go on that will encroach wilderness boundaries.

What trees you destroy you destroy an animals home. So the less you cut the better chance our wildlife has.

Thank you for taking the time to read this letter.

Sincerely,

Brenda
