Title:

Comments: Wilderness Areas are not managed forests.

I oppose using chainsaws to clear trails in the Wilderness

Dead and dying trees should be left alone for wild life in the Wilderness

The Forest Service should use crosscut saws, not chainsaws, of only the fallen trees that must be removed

Wilderness visitors should be allowed to experience nature on its own terms, including any risk that entails

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries

Thank you for keeping Wilderness areas wild!
