Comments: I live in Moscow now, but I grew up around the McCall area, and I spent a lot of my childhood and young adulthood exploring the woods with my family and friends. When I visit home I love to take long drives on the back roads, and I especially love to visit Yellowpine in the summer for the harmonica festival, and simply for a weekend getaway. The idea that some of these places are becoming less accessible breaks my heart. Please keep forest roads open and accessible. It is such a unique and important part of living here. I would be devastated if someday I wasn't able to access some of my favorite places.
