Title:

Comments: Please don't cut the trees that were damaged. The area near our town was targeted for similar "repairs" and all the old growth trees were cut and the area was left in a deforested state. During the summer it dried out because there was no shade and part of it caught fire. During the current fall rains, there were landslides because there were no shrubs, ferns, and trees to keep the dirt in place and soak up the rain.
