Title:

Comments: I strongly oppose using chainsaws to clear trails in Wilderness. Crosscut saws, not chainsaws, should be used to clear trails of only the fallen trees that must be removed. Otherwise, I believe that dead and dying trees should be left alone in Wilderness. Visitors should be allowed to experience nature on its own terms, including any risks that entails. That would be their choice.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.
