Title:

Comments: R5 Post Disturbance Hazardous Tree Management Project for the Pacific Southwest Region (Region 5).

I am against this project. Wilderness is wilderness and should be left as such. With the exception of clearing trails of fallen trees with crosscut saws (NOT CHAINSAWS) and then only those that HAVE to be removed. There should also be no encroachment from activity on wilderness boundaries. Wilderness and its surrounding areas should be kept as free from being despoiled by the greed of the human species and left alone. ...You don't know what you've got until it's gone. Please do not allow what's left of our wilderness to be gone. Once it's gone it will never come back.

Thank you.
