Comments: I have been hiking the Bear Creek Watershed Trail since 20 years and love it.

It gives me an opportunity to be in solitude with fellow hikers and just the wildlife that lives there. (elk, deer, bear, bighorn sheep I have seen there)I hope you find Bear Creek eligible in the GMUG current draft forest plan. The scenery is so amazing with the waterfalls, old mines and dramatic cliffs.

Please protect this outstanding watershed and add it to the wilderness plan so it can be protected indefinitely for its wild and scenic river status.

Thank you so much,

Ulli Sir Jesse
