Title:

Comments: Leave wilderness trees alone! No, chainsaws should be used to clear trails in wilderness. I strongly oppose chainsaws to clear trails in the wilderness. All the dead and dying trees should be left alone in wilderness. The First Service should be using crosscut saws, not chainsaws to clear trails of fallen trees that must be removed. Visitors should be allowed to experience nature on its own terms, including any risks. How would you like chainsaws in your living room? This is not respecting all living things in the wilderness and is despicable.
