Comments:

I have concerns that designated Wilderness areas may be included in this plan. I am against using chainsaws to clear trails in Wilderness areas. I ask that the Forest Service use only crosscut saws to clear trails of trees which MUST be removed. In general I ask that dead and dying trees be left in place as habitat. I believe that visitors to Wilderness areas should be warned of the danger of falling trees, but they should understand that they are choosing to experience nature on its own terms.

Lastly I ask the Forest Service to please exclude all Wilderness areas from this project, including any encroachment from activity on Wilderness boundaries.
