Title:

Comments: I support Alternative C as modified by CORE. I have hunted hiked four wheeled, fished and generally enjoyed Gunnison and Uncompahgre National Forests since 1954. Many of the roads I and others used to be able to travel have been closed. Many for no good reason. Many so called "roadless areas" have been created by regulatory fiat without public input or comment resulting in "De Facto" wilderness not approved by Congress. Let's work for maximum access by all Forest users.
