Title:

Comments:

Having received my MSW just one year prior to losing half my brain, I value aspects of life a bit differently.

Why the aspects in the email, that I simply copied & pasted below -- are perfect for this message:

I oppose using chainsaws to clear trails in Wilderness.

Dead and dying trees should be left alone in Wilderness.

The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.

Thank you very much.
