Last name: Patla

Organization:

Title:

Comments: Please respect Wilderness in your project. Non-motorized tools should be used in designated Wilderness, not chain saws or other machines. Dead and dying trees are part of the natural environment. As a long-time Wilderness user, I accept fallen trees and the risks of being in the wild. Standing dead trees provide valuable habitat for many kinds of birds. Stumps are not compatible with Wilderness, they remain visible for many decades. Desist from conducting this project in Wilderness or along Wilderness boundaries.
