Comments: re: R5 Post Disturbance Hazardous Tree Management Project for the Pacific Southwest Region

No chainsaws to clear trails in Wilderness.

leave dead and dying trees alone in Dead and dying trees are part of what wilderness is all about.

Clear trails w/ hand implements only and only if necessary not simply desired

The Wilderness experience includes accepting hazards of the wilderness. All wilderness visits should be by permit only.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.
