Comments: Dear Sir:

Thank you for the opportunity to comment on this important issues.

I strongly oppose using chainsaws to clear trails in Wilderness areas, any dead and dying trees should be left alone in Wilderness areas.

The Forest Service should never use crosscut saws, nor chainsaws, to clear trails of fallen trees that must be removed.

Wilderness visitors should always be allowed to experience nature on its own terms, including any risks that entails and finally the Forest Service needs to exclude all Wilderness areas from this project in question, including any encroachment from activity on wilderness boundaries.
