Title:

Comments: I want Wilderness to be preserved as Wilderness with only minimal human intervention. Accordingly, dead and dying trees should be left intact in Wilderness. Any necessary removal (eg. a fallen tree blocking a trail) must be done using cross-cut saws and not intrusive and polluting chainsaws. Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails. The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.

Thank you for the opportunity to submit a comment.
