Comments:

I am opposed to any use of chainsaws to clear trails in Wilderness. The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed.

Any dead or dying trees should be left alone in Wilderness and not cut down.

Some danger is a part of the wilderness experience and Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

The Forest Service absolutely needs to exclude all Wilderness areas from this project. This includes any encroachment from activity at wilderness boundaries.
