Title:

Comments: I believe that if an area is designated as Wilderness, then that means it should be left to the devices of nature and that only the minimum of maintenance shall be executed so that trails can be navigated. I oppose using chainsaws to clear them.

Only crosscut saws should be used. Dead and dying trees should be left alone.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

Please exclude all Wilderness areas from this project, including encroachment from activity on wilderness boundaries.
