Title:

Comments: Though not explicitly cited it might implicitly be targeted: wilderness trees in their forests.

This missive is to request you leave wilderness trees alone. Let Nature attend to her ecosystem to clear & Department of the control of the c

recycle in Nature's timing & amp; design.

Our species is wonderful in many respects, but our ignorance & part arrogance has also caused great harm to others within God's creation, of whom we are meant to be good stewards. Please use the authority of your position to be a good steward & please wilderness trees to thrive & pour given the properties of the prop
