Comments: I oppose using chainsaws to clear trails and cut dead and dying trees in Wilderness areas.

The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed. Animals in wilderness areas should be considered and noise should be kept to a minimum, thus no chain saws!

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails. If there is a significant risk in a certain area, post signs warning of such.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.
