First name: Henry

Last name: Berkowitz

Organization: None, I am a private landowner.

Title:

Comments: The forest service needs to go back and read the definition of our national wilderness preserves.

Chainsaws, helicopters, and mechanized equipment are not part of that definition. Neither does it specify making a wilderness safe for visitors. Wilderness gives the visitor the opportunity to see and learn how nature cares for her planet. It is not a place to be manipulated by man as he thinks it should be.
