First name: Gerald

Last name: Terwilliger

Organization:

Title:

Comments: Chainsaws and all motorized implements are prohibited in Wilderness. The Forest Service should comply with this and only use crosscut or other manual saws to remove timber from trails in designated Wilderness areas.

In Wilderness, all should be left alone except for minor clearing of trails. Wilderness, according to the Wilderness Act, is supposed to be left in a natural state and not be modified by humans.

Thank you for considering my comments and for keeping Wilderness natural.
