Title:

Comments: There are very few places like yellow one in the country let alone the PNW like this area. As a representee for one of the largest groups of offroaders in the Northwest, we ask you to not remove access to any of these trails. We're lucky to be riding in such beautiful unique places, and blocking these will only invite those that would do the trails harm by bypassing restrictions. Please leave them open so we can enjoy and protect our riding areas!
