Comments: Please join me in opposing the use of chainsaws to clear trails and to let dead and dying trees to decay naturally in Wilderness.

I am keen to keep Wilderness areas as natural as possible so agree that;

The Forest Service should use crosscut saws, not chainsaws, to clear trails of only the fallen trees that must be removed.

Wilderness visitors should be allowed to experience nature on its own terms, including any risks that entails.

The Forest Service needs to exclude all Wilderness areas from this project, including any encroachment from activity on wilderness boundaries.

Thank you for your attention and continued protection of our valuable Wilderness Resources
